Supplemental Information on Shipping and Return Transport

- **Before shipment, a complete professional cleaning of the containers / individual parts must be carried out and certified.**
- For the **transport of the containers / individual parts**, the **regulations** of the respective operating instructions must be observed and adhered to.
- **Depending** on the **container type**, the following **measures**, for example, must be carried out:
 - remove **lids, seals, discharge valves, ventingports** etc.
 - seal all **openings** airtight
 - Pack **container / individual parts** in **protective film**.
- Repack the **containers / individual parts** in the delivered **transport packaging** in a suitable manner.
- Send us a **copy** of the **product and cleaning certificate** and the **required safety data sheets** before **returning the containers / individual parts**.
- Please **add a second copy** to the **accompanying documents** of the consignment.

The information is important for the **assessment** of a possible **health hazard** of all **employees** who are **entrusted** with the **acceptance of the containers / individual parts** and the **subsequent work**. Their protection has the highest priority in our company.
